Objective: To pursue a highly challenging career in the IT industry, where I can apply my knowledge, acquire new skills and contribute constructively to the organization. I would like to live abroad in an English-speaking country during several years, to live a new experience and mainly to strengthen my English.

WORK EXPERIENCE**March to September 2010:**

C# Developer in [Euro information](#), computer subsidiary of Crédit-Mutuel Group, based in CIC-EST in **Nancy (France)**

- ✓ **Programming:** Developed an intranet application by using C#, XForms, ASP.NET and the company's framework. This web application's goal is to facilitate source code recovery written by the company all over the webfarm.
- ✓ Developed some scripts (in C#) to automate the source code recovery once called by the web service.
- ✓ Entire project's management (researched, study, programming, tests, ...)

January to April 2009:

JAVA Developer in [BSB](#) based in **Luxembourg**

- ✓ **Programming:** Developed a text editor with syntax highlighting and advanced intellisense for Groovy source code (java-like language).
- ✓ Implementation of modules (like the text editor) in [SOLIFE](#)
- ✓ Use of BSB Java Framework, Jira, maven, eclipse...

May to August 2008:

Web programmer, C++/CLI Programmer in [Arghos-Diffusion](#) and [Medistream](#) Ltd as teleworker.

- ✓ **WEB :** HTML, PHP, CSS, JavaScript, [extJS](#) : (forums, blogs, e-shops...) ; **OOP :** C++/CLI
- ✓ Upgrade of following softwares: MedistreamPlayer and ArghosViewer V1.1
